

A COUGH IS ONE THING

# COUGHING OVER & OVER & OVER

IS ANOTHER

Coughing, fatigue, shortness of breath—if you have these symptoms over and over and already suffer from a lung condition like bronchiectasis, COPD, or asthma, it could be a sign of a lung infection called NTM.

What is NTM? **Could you be at risk?** If you have a lung condition such as bronchiectasis, COPD, or asthma, you could be.
